

For Immediate Release

## COSOL Welcomes New Chief Executive Officer, Scott McGowan

**Brisbane, 4 Oct 2016:** The Board of Directors of COSOL is pleased to announce the appointment of a new Chief Executive Officer, Scott McGowan.

“This is an exciting and gratifying time for both COSOL and myself. Scott worked with us for 9 years commencing in a consulting role and progressing through to managing our Eastern Australian region and then our business development globally. It didn’t seem so at the time but I now realise that the time Scott spent working in other organisations has helped grow his skills to a point where he returns to the challenge of filling the most senior operating role in our organisation. I believe Scott’s return, combined with the Capital Intensive Industry experience of our Executive Directors and our consulting and technical teams, heralds a new era for COSOL and our customers.” said Brad Skeggs, Managing Director.

Scott commented “having worked in asset intensive industries with global technology firms, I saw a gap in capability for consulting firms that understand the intersection between the business and technology. In COSOL, I find a company that not only understands it but provides a pragmatic way for asset intensive organisations to drive step change business improvement by leveraging proven technologies. I am excited about the opportunity to lead the COSOL team and I look forward to working with our clients to realize value in their technology investments.”.

Scott returns to COSOL after spending the past 5 years in senior roles with Wipro and IBM. Scott brings a wealth of knowledge as a highly experienced Executive Manager with a proven record of leading diverse teams of professionals to new levels of success in highly competitive markets. Scott’s strong technical and business qualifications, and an impressive track record of hands-on experience in strategic planning, business unit development, project management, product development and system engineering strategies will provide the next level of executive guidance to support COSOL’s rapid expansion.

Scott is extremely well qualified to lead and guide the COSOL brand with continued success into the future. Please join us in welcoming Scott to his new position with COSOL.

**END**

### **About COSOL**

COSOL is a global, professional service provider, specialising in providing strategic advice and practical delivery to optimise clients’ business processes and technology systems. COSOL specialists have a valuable combination of asset intensive industry experience and technology systems expertise, enabling our teams to strategically plan, design, deliver and optimise operational and enterprise systems, continually optimise business processes, and efficiently solve the most complex issues.
